

Live Like You're Dying: The Clock is Ticking and you only have so much time left...

Memory Verse:

Hebrews 2:15 (NLT) "Only in this way could He (Jesus) set free all who have lived their lives as slaves to the fear of dying".

1. Look at *Hebrews 2:14-15 NLT*. You once may have had the fear of dying as a before you decided to follow Jesus. To be honest we all somewhat still have this within us because if faced with death we would have a fear of losing the life we are living. Question: does the process of dying as in the pain of your decaying body bother you more so than the fact you may have not done God's will while you were living?
2. Read *James 4:13-17 NASB*. Do you have a sense of urgency when it comes to telling people about Christ? Share with your Life Group what drives your particular urgency to share the Gospel according to the aforementioned verse.
3. Read *Hebrews 2:14-15* again. What does freedom of death really look like to you when it comes to your life ending on this plane of existence and does it really reflect what God's word says about it or is it a Peter Pan fantasy that you have concocted in your mind?

Call to Action: If a friend or family member tells you they must do something specific "before they get right with God," share with them your sense of urgency about the fear of dying and what God says about putting off what they could do today. Encourage them to come just as they are.
